You are invited to follow your heart and come to mystic, beautiful Kythira (Greece), a wonderful place where you will discover and unlock the potential for beauty and mystical experiences within yourself. Achieve oneness and the lasting joy of being alive. Learn how to shape your existence on Mother Earth and live with greater awareness in a sustainable and benign way.

The daily seminars will cover transformation, manifestation, altered healing status and improved physical health (reprogramming of DNA strands), release from the feeling of being separated, achieving total awareness /oneness/connectedness, using the power of the mind, playfully and creatively designing a new story/history for your neurons and cells.

This process will be assisted and supported by space commandos, elementals (nature spirits) magnetic energy specialists, gnomes, keepers of the earth and high spiritual allies which will all be introduced in this seminar and also united with and activated in the soul of each individual.

The energy from the fairies and gnomes is a gift from the earth, bringing us lightness, a joy for life and advice for a new earthly existence.

There will be enough free time to explore beautiful Kythira and to discover the natural wonders of the island with the healing element of water (the sea) and the people that mirror your essential nature
